50X1-HUM

1. A highway linking the towns of Stalin (Brasov), Targu Sacuesc, Bretcu, and Oituz was widened to between eight and ten meters and asphalted in 1951. On the other side of the Carpathians a similar road is under construction. It runs from Buzau to Oituz and is to be linked up with the Stalin-Oituz road.
2. In 1944 asphaltting was started on the road from Stalin via Presmer and Intorsura Buzaului to Buzau. The work was resumed in 1951, after an interruption of some years.
3. In 1951 the asphaltting of the road from Alba-Iulia to Orastie was completed, thus shortening the trip to Arad.
4. In 1951 work was begun on the construction of a hydroelectric power station in the forests near Talmaciu. In 1951 a concrete reservoir to collect the water of all neighboring streams had already been completed. In 1951 cutting was stopped in the Talmaciu forests.
